Public Health Alert

DATE: April 5, 2022

Man Bitten by Unknown Dog on Lake Linganore Trail in New Market, Maryland on Sunday, April 3, 2022. Seeking Owner of Dog.

A man was bitten by a dog on Sunday, April 3, 2022, around 2:30 PM on the trail near the pump station and bridge in Lake Linganore in New Market, Maryland. The bite occurred when the victim jogged past a dog and its owner. The dog is described as a large breed, possibly a Mastiff, dark tan in color with a dark face. The dog was being walked by a white, adult male, about 30 years old, approximately 6 feet in height with dark hair wearing black clothing.

Contact is needed to confirm the dog's health and whereabouts. The dog will need to be quarantined, which can occur in the owner's home, for 10 days to monitor its health. If the animal is confirmed to be in good health 10 days after the bite, it will be allowed to resume normal activity, and the victim can avoid receiving unnecessary and expensive post-exposure rabies vaccinations. The Frederick County Health Department is asking that the owner or anyone who has information about the animal contact Frederick County Animal Control at 301-600-1544.

If you or someone in your family is bitten or scratched by a dog or cat, obtain contact information from the animal's owner so that appropriate action can be taken. Report bites to Animal Control at 301-600-1544. Report possible human exposure to Community Health Services at 301-600-3342. For general rabies questions, call Environmental Health Services at 301-600-1717. Visit health.frederickcountymd.gov/RABIES for more information.
